How XanaHealth works

See how our intuitive EMR helps you record, store and
organize patient data digitally

Our features and services

Patient Care
XanaHealth Patient Card reduces hospital time with self check-ins and secure access to medical history.

Patient Data Storage
Easily digitizes the process of collecting, storing and accessing patient information.

Automated Insurance Claims
Easily collect claims directly in real time and improve insurance claim processing speed.

Data Reports
Provide timely reports and accurate data representation of clinic records.

Billing and Inventory
Manage your clinic's stock and inventory, expenses and finances all in one place.

Manage OPD
Transform your OPD into a seamless digital journey eliminating paperwork for clinical data recording.

Let's talk about optimizing your organization's performance
